Triage simulation:

Alert analysis Table:

Alert ID	Description	Source IP	Priority	Status
005	Windows: powershell encoded command	10.0.2.3	High (Level12)	Open

IOC Validation summary:

I cross referenced the Windows IP 10.0.2.3 and the powershell script hash against virustotal. VirusTotal flagged the script as malicious, while OTX linked the activity to known malware installer. This confirms that the alert was a True Positive, which requires system isolation.

An suspicious command was used which was harmless: powershell.exe -EncodedCommand cwB0AGEAcgB0ACAAbgBvAHQAZQBwAGEAZAAuAGUAeABlAA==
